

CATEGORY OF DRUGS

Category 1 – Prohibited substances that have the ability to negatively impact the performance of a greyhound. These substances are also more commonly known as ‘stoppers.’

Category 2 – All prohibited substances that are listed under GAR79A. This would also include such substances listed as illegal substances under the Standard for the Uniform Scheduling of Drugs and Poisons (Commonwealth), as amended from time to time, inclusive of NSW Legislation regarding these substances.

Category 3 – All forms of Steroids.

Category 4 – All other substances that have the ability to improve or impact racetrack performance and which have not been included in Categories 1, 2, 3 and 5.

Category 5 – All substances that are registered in Australia for Veterinary use and have accepted therapeutic benefit to the greyhound. Products registered for human use in Australia that may have therapeutic benefits are also included in this category.

PROHIBITED SUBSTANCE EXAMPLES

Category 1	Category 2	Category 3	Category 4	Category 5	
Chlorbutanol	EPO	Boldenone	Caffeine	Procaine	Prilocaine
Atenol	GnRH	Nadralone	Kynoselen	Lignocaine	Prednisilone
Timalol	ITTP	Androsta-1, 4-dieneene-3, 17 dione	Morphine	Prednisone	Hydrocortisone
Alprazolam	Amphetamine		Codeine	Minoxidil	Hemisuccinate
Pentobarbitol	Cocaine	Methandirol Alpha- hydroxystanazol	17 methylmorphinan	Dexamethasone	Naproxen
	Benzolecognine		Ephedrine	Tolfenamic Acid	Tramadol
			Psuedo-ephidrine	Phenylbutazone	Piroxicam
				Ibuprofen	Carboxy
				Firocoxib	Indomethacin
				Pholcodine	Sotalol
			Nortriptyline	Alprazolam
